SUMMARY

Software Engineer with 2+ years of experience building full-stack applications from development to deployment. Skilled in React, Node.js, JavaScript, MongoDB, and REST APIs, with experience in scalable systems and performance optimisation. Strong knowledge of AI/ML, cybersecurity, and secure application development, including machine learning integration.

PROJECTS EXPERIENCE

Government Security & Identity Protection System (React, Node, AI/ML, Blockchain)

It is a secure citizen identity and government systems against cyber threats. It provides a trusted, tamper-proof platform for digital IDs and e-government access. It uses AI to verify users and detect fraud, deepfakes, or insider abuse and protect sensitive public records, voting systems, and critical databases using blockchain technology.

Virtual Stock Market (FinSharp) (AI, ML, MERN Stack)

FinSharp is a web-based stock market simulation game built for Jainam Brokerage. It allows users to experience real-world market trading in a virtual environment while learning key concepts of investing and portfolio management. The platform helps users practice trading, build strategies, and improve their financial skills through an engaging and interactive experience.

Malware detection System (REACT, NODE, MUI)

This is a full-stack web application for malware detection using machine learning. The system allows users to upload files for analysis and determines whether they are malicious or benign. It uses a LightGBM machine learning model trained on a dataset of 500,000 samples to deliver accurate and efficient malware classification.

PROGRAMING SKILLS

Languages: C, C++, JAVA, PHP, Python, TypeScript, JavaScript, Blockchain, AI/ML, and .NET

Frameworks/Libraries: React, Next, Node, Express, React Native, Tailwind CSS

Tools, DBs and Software: SQL, MongoDB, Postgres, AWS, Oracle, Git, GitHub, Postman, Vercel, ChatGPT, Cursor, Gemini, Claude

EDUCATION

Swinburne University of Technology, Master's in Information
Technology (Professional Computing)

Feb 2024 - Nov 2025

Veer Narmad South Gujarat University, Bachelor's in Information
Technology - GPA 8.23

July 2020 - March 2023

INDUSTRY EXPERIENCE

Clock Solutions (July 2025-Dec 2025) Apprenticeship - Melbourne: Full Stack Developer

Lexicon Solution (2022-2024): Full-Stack Web Developer (MERN stack)

Jainam Broking Limited (Nov 2022-Mar 2023) Apprenticeship: Full-Stack Developer

ACHIEVEMENTS

IIT Bombay Programming Certifications: C, C++, Java, RDBMS, PHP, Linux

Google Python Certificate, Crash Course on Python

Jainam Broking PVT LTD Certificate for Project Completion and Event Management
